

## **Pediatric General Surgeon - Stollery Children's Hospital.**

The Department of Surgery, Division of Pediatric Surgery, University of Alberta in partnership with Alberta Health Services (AHS) invites applications for a 1.0 FTE position of Academic Pediatric General Surgeon. The successful applicant will be expected to apply for a Special Continuing Faculty appointment in the Department of Surgery, University of Alberta which will be considered a separate process with the Faculty of Medicine and Dentistry. The successful applicant will be expected to participate in all aspects of an academic position including clinical practice, research, teaching and administrative activities and will join a group of 4 Pediatric General Surgeons who provide a full range of elective and acute/trauma services to children up to the age of 18 years. **Start date is Aug. 2, 2021.**

### **Additional Notes About Edmonton**

The Division of Pediatric Surgery is an integral part of the Department of Surgery and provides secondary through quaternary care for the city of Edmonton, northern Alberta and parts of British Columbia, Saskatchewan, Northwest Territories, Yukon Territories and Nunavut. This position will be based at the University of Alberta Hospitals (UAH); a leading clinical, research and teaching centre, treating more than 700,000 patients annually. This surgeon will work primarily at the Stollery Children's Hospital (STO) a western Canadian referral centre for specialized pediatric services located within the UAH. The hospital has thirty ward beds and an eight bed 23-Hour Unit as well as four NICU's located at different institutions and two critical care units located on site. Over 10 thousand surgical procedures are performed annually. The hospital is committed to meeting the ever-changing health needs of children in an environment that integrates excellence in the delivery of care, education, and research.

The University of Alberta is one of the top 100 teaching and research universities in the world and home to more than 39,000 students and 15,000 faculty and staff. Founded a century ago, the University has an annual budget of \$1.75 billion and attracts more than \$460 million in sponsored research revenue.

### **Qualifications:**

The successful applicant will have certification from the Royal College of Physicians and Surgeons of Canada with subspecialty fellowship training in Pediatric General Surgery and be eligible for licensure with the College of Physicians and Surgeons of Alberta. Advanced laparoscopic training is considered essential for this position. Preference may be given to an individual who has or is prepared to undertake a Masters (or higher) Degree.

### **Compensation:**

Remuneration will be based on a fee-for-service model with billing directly to Alberta Health. Currently a Clinical ARP is being negotiated and may be instituted at a future date.

### **Recruiter Contact:**

Consideration of applications will continue until the position is filled. Interested applicants who meet the above qualifications should forward their curriculum vitae, a letter of application and the names of 3 references to:
